## In WJO

## Workshop on "Pipelines Integrity"

On Tuesday, May 2, 2023, the Assets Integrity Team along with the Facilities Engineering Team of WJO, in collaboration with the Center of Excellence and the Operations Integrity Management Group of KOC, organized a workshop about the risks to pipelines crossing highways.

During the workshop, which was presented by the Chief Corrosion Specialist at KOC Eng. Hassan Sabri, the mechanical risks related to corrosion were explained and discussed. Moreover, recommendations and optimal solutions, used in global companies, such as coating, cathodic protection, and other technologies to protect pipelines crossing highways, were presented.

At the end of the workshop, all cases and inquiries related to the workshop topic were addressed and answered. Furthermore, Mr. Bakheet Al-Yami, Assets Integrity Superintendent, honored Eng. Sabri for detailed technical information and explanations he delivered during the workshop.

## “The Right of Access to Information Law” Lecture

The HR Group, represented by the Personnel Administration & Industrial Relations Team, organized a lecture on Law No. 22 of 2020 regarding the right to access information, in which the lecturer Dr. Khaled Al-Rasheedi, Professor of Law at the Kuwait University, was hosted. It took place on Sunday, May 7, 2023, at Ahmad Al-Jaber Oil & Gas Exhibition.

It was attended by the HR Group Manager, Mr. Faisal Al-Jeri, and the Manager of Commercial Affairs Group and the KGOC Right to Access Information Law Implementation Committee Deputy Head, Mr. Waleed Al-Khaddah, in addition to several managers and employees. Dr. Al-Rasheedi addressed various information about the law, including its historical background, and that it is one of the most important laws that have been issued in recent years as its purpose is to regulate the relationship of individuals with the State and its various institutions.

The law allows individuals the right to access information and administration decisions and to obtain public documents held by official authorities. It is conducted through a form specially prepared for this purpose and submitted to those authorities in a manner that does not conflict with the legislation in force, considering that such information is public and available for publication and is not subject to legal confidentiality.

Dr. Al-Rasheedi also clarified the classification of information that individuals can access, the exceptions to such information, and the confidentiality concept of the law, as well as the mechanism for submitting a request for access, and other information related to the topic of the lecture.

The attendees greatly interacted in the lecture, in which the lecturer answered their inquiries based on his expertise and great knowledge of the right to access information law, as he delivered, through the Transparency Society, lectures on this law to more than 60 government authorities, including oil companies, and contributed to the formulating the right to access information law.
